2020 Vision For Climate-Health in Medical Curricula

medical
students
worldwide

Climate-Health Vision

IFMSA
International Federation of
Medical Students' Associations

1. To have an element of climate-health included in the curriculum of every medical school by 2020
2. To have an integration of climate-health in all aspects of medical school life, including research, advocacy, training, and university healthcare systems by 2025.

Question

IFMSA
International Federation of
Medical Students' Associations

Which of the following descriptions best fits the current state of climate change, environment and health-related teaching at your medical school?

Answers

IFMSA
International Federation of
Medical Students' Associations
