 How to work strategically with environmental friendliness in the HPH H/HS

Centre

WHO Collaborating (

Goal: Better health gain by integrating HP

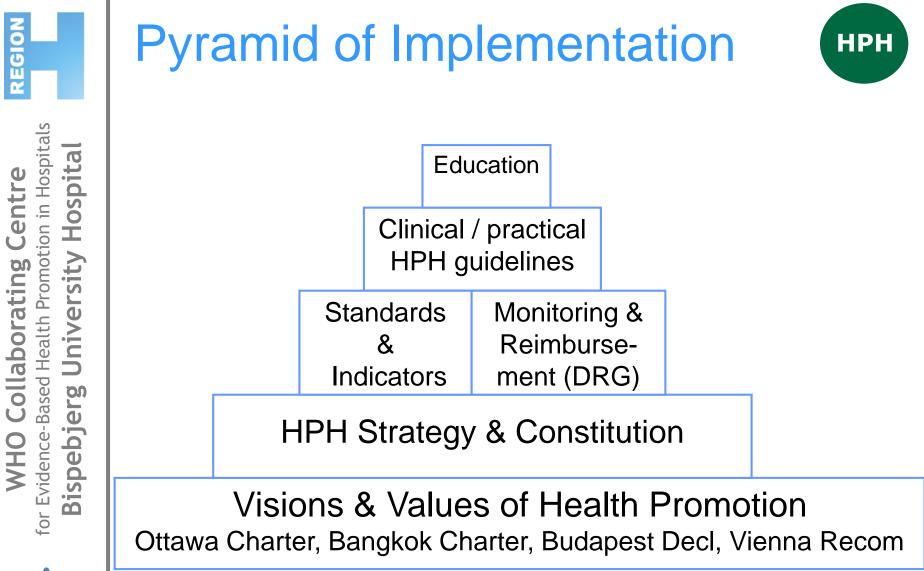

Focus: Patients, staff, community and environment

Evidence-Based Platform: Health Promotion should be based on evidence rather than ideology

(Gro Harlem Brundtland, WHO, 2000)

Ottawa Charter for HP, 1986

- Cope with the environment...
- Environmental ... factors can favour health or be harmful to it
- Cleaner, more enjoyable environments
- Take care of ... our natural environment
- Protection of the natural ... environments and the conservation of natural resources must be addressed in any HP strategy
- Open channels between the health sector and environmental components
- Counteract the pressures towards harmful products, resource depletion, unhealthy living conditions and environments

Budapest Declaration on HPH 1991

- Raise awareness of the impact of the environment of the hospital on the health of patients, staff and community
- The physical environment of hospital buildings should support, maintain and improve the healing process

Vienna Recommendations on HPH 1997

- Hospitals are producers of large amount of waste. They can contribute to the reduction of **environmental pollution** and, as consumers of large amounts of products, they can favour healthy products and **environmental safety**.
- A health promoting hospital should ... be oriented towards protection of the environment

WHO Standards for HP

for Evidence-Based Health Promotion in Hospitals University Hospita WHO Collaborating Centre Bispebjerg

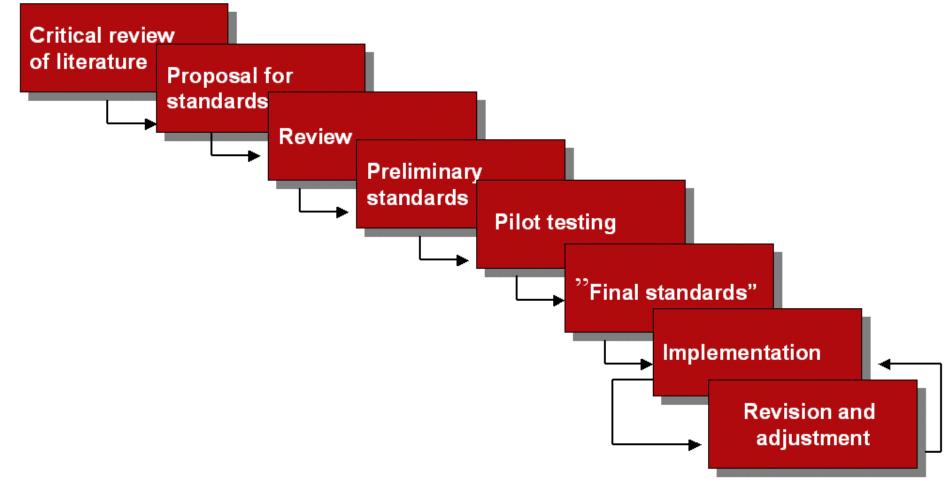

1. Management policy of HP

- 2. Patient Assessment
- 3. Patient Intervention & Info
- 4. Promoting a healthy workplace
- 5. Continuity and cooperation

нрн HPH DATA Model (St. 2)

ISQUA ALPHA programme for development of standards

WHO Standards for HP in H 2006

- Environment mentioned in the explanatory text (p. 12, 13, 64, 75, 76, 81, 83, 89, 90 and 91) but not in the actual standards themselves.
- The **environment** is referred to implicitly in many instances within the actual standards.

for Evidence-Based Health Promotion in Hospitals Bispebjerg University Hospital Centre WHO Collaborating (

Explanatory text

- Hospitals consume goods and produce waste and hazardous substances. HP strategies can help to reduce the pollution of the **environment**
- Environmental issues in hospitals may be developed at a later stage
- Areas of HP activities can be grouped as follows ... safety/physical environment
- HPH develops itself into an HP physical environment
- Action directed towards changing environmental conditions
